

APRICOT FOODS PRIVATE LIMITED

AUDITED FINACIAL STATEMENTS

FOR THE YEAR ENDED 31ST MARCH 2019

Walker Chandiook & Co LLP

Independent Auditor's Report

To the Members of Apricot Foods Private Limited

Report on the Audit of the Financial Statements

Opinion

Walker Chandiook & Co LLP
10 C Hungerford Street
5th Floor, Kolkata 700017
India

T +91 33 4050 8000

1. We have audited the accompanying financial statements of Apricot Foods Private Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ('Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, of the state of affairs (financial position) of the Company as at 31 March 2019, and its loss (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

4. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs (financial position), profit or loss (financial performance including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Independent Auditors' Report of even date to the members of Apricot Foods Private Limited on the financial statements for the year ended 31 March 2019 (Cont'd)

5. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
6. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

7. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
8. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
9. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
10. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Walker Chandio & Co LLP

Independent Auditors' Report of even date to the members of Apricot Foods Private Limited on the financial statements for the year ended 31 March 2019 (Cont'd)

Report on Other Legal and Regulatory Requirements

11. As required by section 197(16) of the Act, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
12. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order.
13. Further to our comments in Annexure A, as required by Section 143(3) of the Act, we report that:
 - a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c. the financial statements dealt with by this report are in agreement with the books of account;
 - d. in our opinion, the aforesaid financial statements comply with the Ind AS prescribed under Section 133 of the Act;
 - e. on the basis of written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2019 from being appointed as a director in terms of Section 164(2) of the Act;
 - f. we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31 March 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date and our report dated 24 April 2019 as per Annexure B expressed our unmodified opinion on adequacy and operative effectiveness of internal controls over financial reporting; and
 - g. with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company, as detailed in Note 34(a) to the financial statements, has disclosed the impact of pending litigations on its financial position;
 - ii. the Company did not have any long-term contracts including derivatives contract for which there were any material foreseeable losses;
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company; and
 - iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016 which are not relevant to these financial statements. Hence, reporting under this clause is not applicable.

Annexure A to the Independent Auditor's Report of even date to the members of Apricot Foods Private Limited, on the financial statements for the year ended 31 March 2019

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular program of physical verification of its fixed assets under which fixed assets are verified in a phased manner over a period of three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties (which are included under the head 'fixed assets') are held in the name of the Company.
- (ii) In our opinion, the management has conducted physical verification of inventory at reasonable intervals during the year and no material discrepancies between physical inventory and book records were noticed on physical verification.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has not entered into any transaction covered under Sections 185 and 186 of the Act. Accordingly, the provisions of clause 3(iv) of the Order are not applicable.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of Section 148 of the Act, in respect of Company's products. Accordingly, the provisions of clause 3(vi) of the Order are not applicable.
- (vii)(a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) The dues outstanding in respect of income-tax, sales-tax, service tax, duty of customs, duty of excise and value added tax on account of any dispute, are as follows:

Name of the statute	Nature of dues	Amount (₹ lacs)	Amount paid under protest (₹ lacs)	Period to which the amount relates	Forum where dispute is pending
Income-tax Act, 1961	Income tax	68.84	13.77	AY 2014-15	Commissioner of Income tax (Appeals)

- (viii) The Company has no loans or borrowings payable to a financial institution or a bank or government and no dues payable to debenture-holders during the year. Accordingly, the provisions of clause 3(viii) of the Order are not applicable.

Annexure B to the Independent Auditor's Report of even date to the members of Apricot Foods Private Limited, on the financial statements for the year ended 31 March 2019

Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. In conjunction with our audit of the financial statements of Apricot Foods Private Limited ("the Company") as at and for the year ended 31 March 2019, we have audited the internal financial controls over financial reporting ("IFCoFR") of the Company as at that date.

Management's Responsibility for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Annexure B to the Independent Auditor's Report of even date to the members of Apricot Foods Private Limited, on the financial statements for the year ended 31 March 2019

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

The Company has its manufacturing facilities at Rajkot, Gujarat and at Hyderabad, Telangana.

1 Significant accounting policies and key accounting estimates and judgements

1.1 Basis of preparation of financial statements

These financial statements have been prepared to comply in all material aspects with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016 notified under Section 133 of the Companies Act, 2013 ("the Act") and other relevant provisions of the Act, to the extent applicable.

These financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these financial statements.

1.2 Current/Non-current classification

The Company presents all its assets and liabilities in the balance sheet based on current or non-current classification. Assets and liabilities are classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Act. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities. Deferred tax assets and liabilities are classified as non-current assets and non-current liabilities, as the case may be.

1.3 Recent accounting pronouncements

Ind AS 116, Leases:

On 30 March 2019, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 116, Leases. The new standard proposes an overhaul in the accounting for lessees by completely letting go off the previous "dual" finance vs. operating lease model. The guidance in the new standard requires lessees to adopt a single model approach which brings leases on the balance sheet on day 1, in the form of a right-of-use asset and a lease liability.

The standard permits two possible methods of transition:

- Retrospective approach - Under this approach the standard will be applied retrospectively as if Ind AS 116 always applied, to each prior reporting period presented in accordance with Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors
- Prospective Approach - Under this approach, measurement of asset is done as if Ind AS 116 had been applied from lease commencement (using incremental borrowing rate at initial application date i.e. April 01, 2019) or measure the assets at an amount equal to the liability. Lease liability will be calculated by doing the present value of remaining lease payments for existing operating lease using incremental borrowing rate at the date of transition.

Further, standard has also given the relief as Grandfathering provision as follows:-

As on initial application date, Company may:

- Apply this standard only to leases identified as per erstwhile Ind AS 17 and
- Not apply Ind AS 116 to contracts which were not identified as leases as per Ind AS 17

The effective date for adoption of Ind AS 116 is financial periods beginning on or after 01 April, 2019. The Company will adopt the standard on 01 April, 2019 by using the cumulative catch-up transition method and accordingly comparatives for the year ending or ended 31 March 2019 will not be retrospectively adjusted.

1.4 Summary of significant accounting policies

(a) Property, plant and equipment

Measurement at recognition

Property, plant and equipment is stated at historical cost less accumulated depreciation and impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are added in the asset's carrying amount/recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of such item can be measured reliably. All other repairs and maintenance expenses are charged to the Statement of profit and loss in the period in which they are incurred. Gains or losses arising on retirement or disposal of property, plant and equipment are recognized in the Statement of profit and loss.

Capital work-in-progress and Capital advances

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless other wise stated)

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work in progress. Advances given towards acquisition of property, plant and equipment outstanding at each balance sheet date are disclosed as Other Non-Current Assets.

Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in Statement of profit and loss.

Depreciation

Depreciation on each part of an item of property, plant and equipment is provided using the Written Down Value Method based on the useful life as prescribed under Schedule II of the Act. Residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each balance sheet date and any change in them is adjusted prospectively.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

(b) Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the recoverable amount of the asset or the cash generating unit is estimated. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount. The carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognized in the Statement of profit and loss. If, at the reporting date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount. Impairment losses previously recognized are accordingly reversed in the Statement of profit and loss.

(c) Revenue

A customer of the Company is a party that has contracted with the Company to obtain goods or services that are an output of the Company's ordinary activities in exchange for consideration. The core principle of recognizing revenue from contracts with customers is that the Company recognizes revenue to depict the transfer of promised goods and services to customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

At contract inception, the Company assesses the goods or services promised in a contract with a customer to identify as a performance obligation each promise to transfer to the customer either a good or service (or a bundle of goods or services) that is distinct; or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

The Company considers the terms of the contract and its customary business practices to determine the transaction price. The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties (for example, indirect taxes). The consideration promised in a contract with a customer may include fixed amounts, variable amounts, or both.

If there is variable consideration, the Company includes in the transaction price some or all of that amount of estimated variable consideration only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

In determining the transaction price, the Company adjusts the promised amount of consideration for the effects of the time value of money if the timing of payments agreed to by the parties to the contract (either explicitly or implicitly) provides the customer or the Group with a significant benefit of financing the transfer of goods or services to the customer.

To determine the transaction price for contracts in which a customer promises consideration in a form other than cash, the Company measures the non-cash consideration (or promise of non-cash consideration) at fair value.

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless other wise stated)

The transaction price is allocated by the Company to each performance obligation (or distinct good or service) in an amount that depicts the amount of consideration to which it expects to be entitled in exchange for transferring the promised goods or services to the customer.

For each performance obligation identified, the Company determines at contract inception whether it satisfies the performance obligation over time or satisfies the performance obligation at a point in time. If an entity does not satisfy a performance obligation over time, the performance obligation is satisfied at a point in time.

The Company recognises revenue when (or as) it satisfies a performance obligation by transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset.

For each performance obligation satisfied over time, the Company recognises revenue over time by measuring the progress towards complete satisfaction of that performance obligation. The progress towards complete satisfaction is measured using appropriate methods which include input and output methods.

Once the recognition criteria is met, revenue is measured at the amount of the transaction price (which excludes estimates of variable consideration that are constrained) that is allocated to that performance obligation.

The Company recognises as an asset the incremental costs of obtaining a contract with a customer if it expects to recover those costs. However, as a practical expedient, the incremental costs of obtaining a contract are recognized as an expense when incurred if the amortisation period of the asset otherwise would have been one year or less.

The costs to fulfil a contract are recognized as an asset if the costs relate directly to a contract or to an anticipated contract that the Company can specifically identify; the costs generate or enhance resources of the Company that will be used in satisfying performance obligations in the future; and the costs are expected to be recovered.

The asset recognized for costs to obtain a contract and costs to fulfil a contract is amortised on a systematic basis that is consistent with transfer to the customer of the goods or services to which the asset relates.

When either party to a contract has performed, an entity shall present the contract in the balance sheet as a contract asset or a contract liability, depending on the relationship between the entity's performance and the customer's payment. An entity shall present any unconditional rights to consideration separately as a receivable.

(d) Inventory

Raw materials, work-in-progress, finished goods and packing materials are carried at the lower of cost and net realizable value. However, materials and other items held for use in production of inventories are not written down below cost if the finished goods in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by item basis.

In determining the cost of raw materials and packing materials, weighted average cost method is used. Cost of inventory comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

Cost of finished goods and work-in-progress includes the cost of raw materials, packing materials, an appropriate share of fixed and variable production overheads, excise duty as applicable and other costs incurred in bringing the inventories to their present location and condition. Fixed production overheads are allocated on the basis of normal capacity of production facilities.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. The net realisable value of materials in process is determined with reference to the selling prices of related finished goods.

(e) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement:

The Company recognizes a financial asset in its balance sheet when it becomes party to the contractual provisions of the instrument. All financial assets are recognized initially at fair value, plus in case of financial assets not recorded through fair value through profit and loss (FVTPL), transaction cost that are attributable to the acquisition of the financial asset.

Classification and subsequent measurement:

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

- i. The Company's business model for managing the financial asset and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- 1) financial assets measured at amortised cost.
- 2) financial assets measured at fair value through profit and loss.

1) Financial assets measured at amortised cost

A financial asset is measured at the amortized cost if both the following conditions are met:

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless other wise stated)

- a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate method. The losses arising from impairment are recognised in the Statement of profit and loss.

Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of profit and loss.

2) Financial assets measured at fair value through profit and loss (FVTPL)

Financial assets measured at fair value through profit and loss category are measured initially as well as at each reporting period at fair value. Fair value movements are recorded in Statement of profit and loss.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's balance sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset;
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On derecognition of a financial asset, the difference between the carrying amount and the consideration received is recognized in the Statement of profit and loss.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss ('ECL') model for measurement and recognition of impairment loss for financial assets.

ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless other wise stated)

When making this assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Financial liabilities

Initial recognition and measurement

The Company recognizes a financial liability in its balance sheet when it becomes party to the contractual provisions of the instrument. All financial liabilities are recognized initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit and loss (FVTPL), transaction costs that are attributable to the acquisition of the financial liability.

Classification and subsequent measurement:

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method.

Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of profit and loss.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(e) Foreign currency translation

Initial recognition

On initial recognition, transactions in foreign currencies entered into by the Company are recorded in the functional currency (i.e. Indian Rupees), by applying to the foreign currency amount, the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Statement of profit and loss.

Measurement of foreign currency items at reporting date

Foreign currency monetary items of the Company are translated at the closing exchange rates. Non-monetary items that are measured at historical cost in a foreign currency, are translated using the exchange rate at the date of the transaction. Non-monetary items that are measured at fair value in a foreign currency, are translated using the exchange rates at the date when the fair value is measured.

Exchange differences arising out of these translations are recognized in the Statement of profit and loss.

(f) Taxation

Tax expense recognized in Statement of profit or loss comprises the sum of deferred tax and current tax except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/expense are recognized in Other Comprehensive Income.

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income-tax Act, 1961.

Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Minimum alternate tax ('MAT') credit entitlement is recognized as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which MAT credit becomes eligible to be recognized as an asset, the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement. This is reviewed at each balance sheet date and the carrying amount of MAT credit entitlement is written down to the extent it is not reasonably certain that normal income tax will be paid during the specified period.

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless other wise stated)

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income-tax Act, 1961. Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all of such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

(g) Provisions and Contingencies

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

(h) Cash and cash equivalents

Cash and cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less and other short term highly liquid investments.

(i) Employee Benefits

Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post employment benefits

Defined Contribution plans:

The Company provides defined contribution plans for post-employment benefits in the form of provident fund administered by Regional Provident Fund Commissioner. The Company's contributions to defined contribution plans are charged to the Statement of profit and loss as and when incurred. Provident fund are classified as defined contribution plans as the Company has no further obligation beyond making the contributions, even if the assets of the fund is not enough to pay all the employee benefits.

Defined Benefit plans:

(i) Gratuity

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets (if any). The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless other wise stated)

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the financial statements. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in Statement of profit and loss as past service cost.

Other employee benefits

Entitlements to annual leave are recognized when they accrue to employees. The accumulated balance of annual leave at the end of the reporting period is paid to the employees in the subsequent month. The Company determines the liability for such accumulated leaves on the basis of the last drawn salary and leave balance to the credit of the employee which would be encashed in the subsequent month.

(j) Lease accounting

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement. For arrangements entered into prior to 1 April 2017, the Company has determined whether the arrangement contains lease on the basis of facts and circumstances existing on the date of transition.

(a) Finance Lease

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at fair value of the leased property or, if lower, at the present value of the minimum lease payments, each determined at the inception of the lease. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the Statement of profit and loss.

A leased asset is depreciated on a written-down method over the useful life of the asset or the useful life envisaged in Schedule II to the Act, whichever is lower. However, if there is no reasonable certainty that the Company will obtain the ownership by the end of the lease term, the capitalised asset is depreciated on a written-down basis over the shorter of the estimated useful life of the asset, the lease term or the useful life envisaged in Schedule II to the Act.

(b) Operating Lease

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

(k) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the costs of asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consists of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(l) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company. The Company is in a single business segment (primary segment) of fast moving consumer goods dealing with packaged food products. The entire revenues are billable within India and there is only one geographical segment (secondary segment).

(m) Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

(n) Earnings per equity share

Basic earnings per share is computed by dividing the net profit for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events that have changed the number of outstanding equity shares, without a corresponding change in the resources. For the purpose of calculating diluted earnings per share, net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares. As on the balance sheet date, the Company has no dilutive potential equity shares.

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless other wise stated)

(o) Fair value

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

Level 1 — quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 — inputs that are unobservable for the asset or liability

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

1.5 Key accounting estimates and judgements

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Critical accounting estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

a. Income taxes

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions [Refer Note 27(b)].

b. Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

c. Defined benefit obligation

The costs of post-employment benefits are charged to the Statement of profit and loss in accordance with Ind AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates. The same is disclosed in Note 24, 'Employee benefits'.

d. Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless otherwise stated)

2 Property, plant and equipment

	400,000	40.00	400,000	40.00

13 (a) Reconciliation of equity share capital

There is no movement in the equity share capital during the current and comparative periods.

13 (b) Terms and rights attached to equity shares

The Company has only one class of equity shares having a par value of ₹ 10 per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividend in Indian Rupees. In the event of liquidation of the Company, the holders of the equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts, if any. The distribution will be in proportion to the number of equity shares held by the shareholders.

13 (c) No additional shares were allotted as fully paid up by way of bonus shares or pursuant to contract without payment being received in cash during the last five years. Further, none of the shares were bought back by the Company during the last five years.

13 (d) Details of shareholders holding more than 5% shares in the Company:

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless other wise stated)

24 (a) Defined contribution plans:

Eligible employees of the Company receive benefits under the Provident Fund which is a defined contribution plan wherein both the employee and the Company make monthly contributions equal to a specific percentage of covered employees' salary. These contributions are made to the Fund administered and managed by the Government of India and the Company has no further obligation beyond making its contribution. The Company's monthly contributions are charged to Statement of profit and loss in the period in which they are incurred;

	Year ended 31 March 2019	Year ended 31 March 2018
Employer's contribution to Provident fund	66.39	41.09

24 (b) Defined benefit plans:

Gratuity is a post employment benefit and is a defined benefit plan. The gratuity plan is governed by the Payment of Gratuity Act, 1972. The liability recognised in the balance sheet represents the present value of the defined benefit obligation at the balance sheet date, less the fair value of plan assets (if any), together with adjustment for unrecognised actuarial gains or losses and past service cost. Independent actuaries calculate the defined benefit obligation annually using the Projected Unit Credit Method. Actuarial gains and losses are credited/ charged to the Statement of Other Comprehensive Income in the year in which such gains or losses arise.

The following table summarises the components of defined benefit expense recognized in the Statement of profit and loss/Other Comprehensive Income ('OCI') and the funded status and amounts recognised in the Balance Sheet for the respective plans:

	Year ended 31 March 2019	Year ended 31 March 2018
(i) Change in present value of the defined benefit obligation:		
Obligations at the beginning of the year	49.71	28.71
Current service cost	20.63	9.68
Interest cost	3.88	2.07
Actuarial (gain)/loss arising from assumption changes	0.10	(4.14)
Actuarial (gain)/loss arising from experience adjustments	(49.83)	13.39
Obligations at the end of the year	24.49	49.71
(ii) Change in fair value of plan assets:		
Obligations at the beginning of the year	2.40	2.30
Interest Income on Plan Assets	0.19	0.17
Contribution by employer	7.93	-
Expected return on plan assets	-	-
Actuarial (gains) / loss	(0.65)	(0.07)
Obligations at the end of the year	9.87	2.40
(iii) Reconciliation of present value of defined benefit obligation and the fair value of plan assets		
Present value obligation as at the end of the year	24.49	49.71
Fair value of plan assets as at the end of the year	9.86	2.39
Net liabilities recognized in balance sheet	14.63	47.32
(iv) Components of net cost charged to the Statement of Profit and Loss		
Employee benefit expenses:		
Service cost	20.63	9.68
Finance costs		
- Interest costs	3.88	2.07
- Interest income	(0.19)	(0.17)
Net impact on profit before tax	24.32	11.58
(v) Components Remeasurement losses / (gains) in other comprehensive income		
Actuarial (gain)/loss arising from assumption changes	0.75	(4.07)
Actuarial (gain)/loss arising from experience adjustments	(49.83)	13.39
Remeasurement losses / (gains) in other comprehensive income	(49.08)	9.32

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless other wise stated)

(vi) Assumptions used

With the objective of presenting plan assets and obligations of the defined benefit plans at their fair value at Balance Sheet date, assumptions used under Ind AS 19 are set by reference to market conditions at the valuation date.

	Year ended 31 March 2019	Year ended 31 March 2018
Discount rate (per annum)	7.77%	7.80%
Expected rate of return on plan assets	7.77%	7.80%
Salary escalation rate (per annum)	5.00%	5.00%
Withdrawal rate (per annum)		
	For Officer category 2% p.a. & for Workers category 15% p.a.	For Officer category 2% p.a. & for Workers category 15% p.a.
Expected average remaining working lives of employees (years)	14	8
Mortality	IALM(2006-08) Ultimate table	IALM(2006-08) Ultimate table

(vii) Sensitivity analysis

A quantitative sensitivity analysis for significant assumption is as shown below:

Particulars	Year ended 31 March 2019	Year ended 31 March 2018
Discount rate - Decrease by 1%	3.53	5.43
Discount rate - Increase by 1%	2.92	(4.61)
Salary escalation rate - Decrease by 1%	(3.02)	(4.77)
Salary escalation rate - Increase by 1%	3.59	5.53
Employee turnover rate - Increase by 1%	0.26	0.73
Employee turnover rate - Decrease by 1%	(0.40)	(0.91)

Methods and assumptions used in preparing sensitivity analysis and their limitations:

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the Balance Sheet.

(viii) Maturity analysis of the benefit payments:

Weighted average duration of both gratuity plan is 8 years. Expected benefits payments for each such plans over the years is given in table below:

Particulars	Gratuity (funded)	
	As at 31 March 2019	As at 31 March 2018
Year 1	1.05	3.92
Year 2	0.44	2.15
Year 3	0.76	4.86
Year 4	1.63	5.76
Year 5	6.44	9.24
Next 5 years	54.42	92.22

Expected employer contribution in Gratuity plan for the year ending 31 March 2020 is ₹ 32.26 lacs (31 March, 2019: ₹ 67.96 lacs)

Apricot Foods Private Limited

Notes to the financial statements for the year ended 31 March 2019

(All amounts in ₹ lacs, unless other wise stated)

- (c) Aforesaid defined benefit plans typically expose the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk	The present value of the defined benefit liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.
Interest risk	A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's investments.
Longevity risk	The present value of the defined benefit liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit liability is calculated by reference to the future salaries of plan participants. As such, an increase in salary of the plan participants will increase the plan's liability.

Cash and cash equivalents	10	-	-	27.10	43.07
Other balances with banks	11	-	-	60.79	15.88
Financial liabilities measured at amortised cost					
Loans repayable on demand - working capital loans	16	-	-	366.82	-
Trade payables	17	-	-	823.59	305.50
Employee payables	18	-	-	131.65	184.62
Trade deposits from dealers/distributors	18	-	-	21.55	27.45
		-	-	1,343.61	517.57

(B) Fair value measurement heirarchy

The fair value measurement heirarchy of the Company's financial assets and liabilities are as follows:

- (i) Financial assets measured at fair value through profit or loss

Investment in unquoted mutual funds

As at
31.03.2019 As at
31.03.2018
(Quoted prices in active markets
(Level 1))

263.95 1,664.91

There are no other financial assets or financial liabilities of the Company which have been measured at fair value other than investment in unquoted mutual funds which falls under Level 1 (Quoted prices in active markets) fair value heirarchy. Accordingly, there are no reportable disclosures under Level 2 (significant observable inputs) and Level 3 (significant unobservable inputs) fair value heirarchy respectively.

- (ii) Financial Instrument measured at Amortised Cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

29 Fair value measurement (contd.)

(C) Financial risk management

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's risk management policy is set by the Board of Directors. The Company's activities may expose it to a variety of risks such as Credit Risk, Liquidity Risk and Market Risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. A summary of the risks have been given below.

(a) Credit Risk

The Company's exposure to credit risk is limited to the carrying amount of financial assets recognised at the date of the

Particulars	As at	As at
	31 March 2019	31 March 2018
Cash and cash equivalents	27.10	43.07
Trade receivables	729.76	361.50
Investments	263.95	1,664.91
Other bank balances	60.79	15.88
Total	1,081.60	2,085.36

Trade receivables are usually due within 30-60 days. 96% of the total trade receivables of the Company are due within 30 days as at 31 March 2019. Generally and by practice most customers enjoy a credit period of approximately 30-60 days and are not interest bearing, which is the normal industry practice. All trade receivables are subject to credit risk exposure. However, the Company does not identify specific concentrations of credit risk with regard to trade and other receivables, as the amounts recognised represent a large number of receivables from various customers.

The Company continuously monitors defaults of customers and other counter parties, identified either individually or by the Company, and incorporates this information into its credit risk controls.

The Company's management considers that all the above financial assets that are not impaired for each of the reporting dates and are of good credit quality, including those that are past due. None of the Company's financial assets are secured by collateral or other credit enhancements.

In respect of trade and other receivables, the Company's credit risk exposure towards any single counter party or any group of counter parties having similar characteristics is considered to be negligible. The credit risk for liquid funds and other short-term financial assets is considered negligible, since the counter parties are reputable banks/mutual fund houses with high quality external credit ratings.

The movement of the expected loss allowance for bad and doubtful debts made by the Company are as under:

Particulars	Expected credit loss provision	
	As at	As at
	31 March 2019	31 March 2018
Opening balance	-	-
Add: Provisions made (net)	17.79	-
Less: Utilisation for impairment/de-recognition	-	-
Closing balance	17.79	-

Apricot Foods Private Limited**Notes to the financial statements for the year ended 31 March 2019**

(All amounts in ₹ lacs, unless other wise stated)

29 Fair value measurement (contd.)**(b) Liquidity Risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, that it will always have sufficient liquidity to meet its liabilities when due. The Company's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by the senior management.

As at 31 March 2019, the Company's liabilities have contractual maturities which are summarised below:

	Current	Non-current	
	Within 1 year	1 to 5 years	more than 5 years
Trade payables	823.59	-	-
Financial liabilities	153.20	-	-
Total	976.79	-	-

(c) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Foreign currency risk

The Company can be exposed to currency risk to the extent that there is mismatch between the currencies in which sales, purchase are denominated and the respective functional currencies of Company. During the previous year there is no mismatch between the currencies hence Company is not exposed any currency risk.

(ii) Price risk

The Company does not have any significant investments in equity instruments which create an exposure to price risk.

(iii) Interest rate risk

The bank deposits are placed on a fixed rate of interest of approximately 7%. As the interest rate does not vary unless such deposits are withdrawn and renewed, sensitivity analysis if not performed.

(D) Capital management

The Company manages its capital to ensure that the Company will be able to continue as going concern while maximizing the return to shareholders through the optimization of debt and equity balance. The Company has no outstanding debt.

The Board of Directors review the capital structure of the Company on need basis. As part of this review boards evaluates the leverage in Company and assessment of cost of capital.

30 Information about major customer

During the financial year ended 31 March 2019, revenue of approximately 19% (31 March 2018: 20%) is derived from one external customer.
